10. BRIEF SUMMARY OF SIGHTING Silent elongated object, ver high, infflight with pulsating white light. No sound. Appeared in West and disappeared in East over horizon after 2 minute estimate on duration. Speed estimated by observer 2-3 times that of Satellite.				11. COMMENTS Description of flight consistant with analysis as A/C. Nothing indicates that this is other than a normal misinterpretation of a conventional object (A/C).

Gentlemen:

Please check your  
high-altitude or satellite  
flight plans, reference  
point over FAIRFIELD  
UNIVERSITY, Connecticut,

for 4:06 A.M. June 25, 1963,  
Tuesday. I report the following sighting.

This silent very high altitude  
elongated? object, good aerial  
visibility, unconventional  
pulsating white light or glow;

came in from the western  
sky, due west, no sonic  
vibrations, and within one  
to two minutes cleared  
to the Eastern horizon  
over Bridgeport, Connecticut,  
where it became non-  
visible, due to its fantastic  
speed which I estimate  
could be 2-3 times the  
speed of satellites I  
have recently accidentally  
observed. At first I thought  
I was observing a SATELLITE!  
My W.W.I.I. Signal Corps ground  
observer-radar training & ex-  
private pilot training & license  
qualifications should be taken seriously.  
Several years ago, I, & 2 persons saw 30 F.O.'s over  
LONG ISLAND SOUND.
